

ACTatek™ - FINGERPRINT & SMART CARD
MOBILE BATTERY & MOBILE KIT

Mobile Battery

ACTatek mobile battery features a long-lasting, rechargeable with a portable design, to ensure performances can be taken anywhere and everywhere. Once the ACTatek is equipped with mobile battery, everybody will be able to record their IN / OUT time temporarily where there are places that don't have any electric power supply near by.

Mobile Kit

The ACTatek Mobile Kit is a size of a lunchbox that holds an ACTatek and the Mobile Battery. The kit opens closes and locks just like an ordinary suitcase. Inside the ACTatek Mobile Kit there is protective foam that protects the ACTatek unit and the Mobile Battery from any high impact collision.

FEATURES & BENEFITS

- Remote time recording without any restrictions
- Easy to carry
- Long lasting mobile battery life
- Water proof, dust proof, and shock proof
